Somewhere there is a House for Beauty .... a place that invites the soul to consider peace as its deepest center ... beauty is the language spoken, and service is the action that is offered ... where guests discover their possibilities for purpose and sacred action. Somewhere there is a House for Beauty ... a place for children to know they have come home. Somewhere there is a House for Beauty where life is lived as a school of Love, where Love is the instructor and the course of study ... Somewhere there is a House for Beauty.

**Robert Daniel Smith, River Falls**
